

## **General Public Training Workshops and Events**

Vocational training is an important aspect of the University of Poonch Rawalakot for the general public. This University recognizes the significance of providing practical, job oriented skills and knowledge to not only the students as well as for the community members, beyond traditional academic education, and this is the reason that vocational training programs at the University of Poonch Rawalakot play crucial role in addressing the need of the general public by empowering them with practical skills and knowledge, thereby contributing to personal development, local growth.

Vocational training equips individuals with practical skills and competencies that are directly applicable to various industries and job markets. This empowers students and the general public to find employment more easily and excel in their chosen careers. UPR tailors its vocational training programs to the specific needs and demands of the local community and job market. By offering diverse range of vocational courses, University of Poonch Rawalakot provides opportunities for people from different backgrounds and interests. Whether in fields like agriculture, poultry, healthcare, food technology, or trade skills, there are options for everyone to explore and excel in. With the rapidly changing job landscape, vocational training helps individuals stay up-to-date with industry trends and technological advancements, making them more competitive in the job market. Following are two such events conducted by UPR in 2022.
