

## WOMEN ACCESS SCHEMES

### **1- EmpowerHer: Career Bootcamp for Female Graduates**

EmpowerHer is a specialized career bootcamp tailored exclusively for female graduates, designed to provide them with the essential tools and guidance needed to embark on a successful professional journey after graduation. The program encompasses a range of valuable components, including personalized career assessments, skill-building workshops on resume crafting and interview acumen, and insightful sessions with industry experts. Participants will also have the opportunity to network with accomplished female professionals, explore entrepreneurship and freelancing, and gain strategies for achieving a healthy work-life balance. Additionally, EmpowerHer offers a mentorship program for ongoing support and access to post-bootcamp resources, job listings, and exclusive events. With a commitment to

empowering female graduates, EmpowerHer is poised to equip them with the confidence and skills necessary to excel in their chosen careers.

## **2- TRAINING WORKSHOP ON FOOD PROCESSING AND PRESERVATION FOR STUDENTS & LOCAL FEMALE COMMUNITY**

Like every year, the Department of Food Science and Technology again arranged workshops and training courses on "processing and preservation techniques" for the students and community females. They were trained for the development of value added products from indigenous freshly produced fruits and vegetables like Jam, Jelly, Squash, Pickle, and Ketchup Marmalade. Besides, they were well trained for how to preserve fresh produce to maintain safety and nutritional worth of products. In addition, bakery products were also manufactured during training workshop on the demand of local community females. Training certificates were also distributed among them. They highly appreciated such kind of healthy activities of the University for community interest and to tackle food scarcity issues.

### **3- Success at the Inter-University Quiz Competition in Lahore, Pakistan**

Female students from our university recently showcased their intellectual prowess at an inter-university quiz competition held in Lahore, Pakistan. The event was sponsored by JS Bank Ltd. The event brought together participants from various universities across the country to test their knowledge in the fields of Pakistan's history, science, and information technology.

In a remarkable display of talent and expertise, our students demonstrated exceptional command over these subjects, securing the runner-up position and earning a coveted cash prize. This achievement not only reflects their dedication to academic excellence but also highlights their commitment to representing our university on a national platform.
