
WOMEN'S REPRESENTATION IN UNDERREPRESENTED SUBJECTS

Women's underrepresentation in engineering field is a prominent concern in Pakistan Universities. Furthermore, there are also numerous gender-related challenges in learning of technical courses, which additionally contribute to gender underrepresentation in engineering education. The department of electrical engineering, University of Poonch Rawalakot is facing the issue of substantially less number of girl's applications. Therefore, the Department of Electrical Engineering organized a two-days seminar in collaboration with Girls Post-Graduate College Khrick Rawalakot, and Model Science College Rawalakot for the purpose of raising awareness and intrest of girls in the career oriented Engineering field.
