1- Empowering Workshop on Safety, Inclusion, and Engagement

A workshop was organized by the Director of Campus for the female students of the Department of Computer Science & Information Technology, 14th Nov, 2022. The workshop focused on empowering our students with knowledge and skills to safeguard themselves against any form of harassment and discrimination within the campus environment.

During the session, attendees received invaluable guidance on recognizing and addressing various types of inappropriate behavior, ensuring a safe and respectful educational experience for all. The workshop also emphasized the importance of creating an inclusive campus culture where every student feels valued and respected.

Furthermore, our female students were provided with insights on how to actively engage in a range of healthy activities available on campus. They were encouraged to explore opportunities in sports, departmental societies, and academic pursuits. This holistic approach to student development aims to foster a well-rounded educational experience that goes beyond the classroom.

We believe that empowering our students with knowledge, skills, and a supportive environment is crucial for their personal and academic growth. We look forward to continuing our efforts to create a safe, inclusive, and engaging campus community for all students.

2- Digital Story Writing Competition and Workshop for Female Students

The U.S. State Department recently organized a digital story writing competition exclusively for female students, as part of the IVLP Impact Award Project. This initiative offered participating students a unique chance to enhance their storytelling skills through a comprehensive two-day training workshop focused on digital story writing. Additionally, students were provided with a remarkable opportunity to further develop their abilities with a five-month free course, all under the auspices of this esteemed project.

Adding to the significance of the event, Dr. Abid Hussain, the Director of the Office of Research, Innovation, and Commercialization (ORIC) at the University of Poonch Rawalakot, addressed the participants. His insights and guidance undoubtedly enriched the experience for all attendees, leaving a lasting impact on their creative journeys.

This event stands as a testament to the commitment of the U.S. State Department, the IVLP Impact Award Project, and Dr. Abid Hussain in empowering female students through education, skill-building, and fostering a vibrant community of storytellers.
