
Tracking Women Graduation Rate

At the University of Poonch Rawalakot, AJK, we are proud to observe that the graduation rates reveal an encouraging trend: the number of female graduates is not just comparable to, but often exceeds that of male students. This trend indicates that women are increasingly seeking higher education at our university and are successfully completing their studies at an inspiring rate. This upward trajectory in female graduation rates is a testament to our commitment to creating a supportive and equitable environment for all our students, offering equal opportunities without discrimination. Our dedication to fostering such a balanced academic atmosphere is clearly reflected in these positive outcomes.
