1- Department of Sociology conduct two days' workshop with the collaboration of World Health Organization (WHO) on Monitoring and Evaluation during Polio campaign

In November 2023, the Department of Sociology University of Poonch Rawalakot in partnership with the World Health Organization (WHO) organized a two-day workshop on monitoring and evaluation during the polio campaign. This workshop aimed to strengthen the participants' ability to effectively monitor and assess the progress and impact of polio eradication efforts. Experts from WHO and university faculty led interactive sessions focused on data collection, evaluation techniques, and identifying key performance indicators crucial for tracking campaign success. The event brought together students, faculty, and health professionals, underscoring the critical role of comprehensive monitoring in ensuring the effectiveness of public health initiatives like polio eradication.

"Department of Sociology, University of Poonch, Rawalakot, in collaboration with WHO, hosts a two-day workshop on monitoring and evaluation for an effective polio campaign."

2- One Day seminar on Entrepreneurship

The Faculty of Management, Humanities, and Social Sciences' Department of Business and Commerce recently hosted an informative one-day session on the "Importance of Entrepreneurship." Students, prospective business owners, and faculty members who were keen to learn about the critical role that entrepreneurship plays in the modern economy attended the program. Prominent speakers and business leaders discussed how innovation, economic expansion, and job creation are fueled by entrepreneurial abilities. The value of creativity and resilience was emphasized as participants learned about the foundations of launching a business, including idea generating, market research, and strategic planning. The discussion focused on the ways that entrepreneurship supports neighborhood socioeconomic development in addition to empowering individuals. Participants were able to actively participate in interactive conversations, which promoted a deeper comprehension of the difficulties and benefits of starting your own business. With the information and drive to pursue entrepreneurial pursuits, this session had a significant impact in encouraging participants to consider their position in influencing the future economy.

Encouraging Minds: Department of Business Administration organized One-Day Workshop on the Crucial Function of Entrepreneurship in the Current Economy.

3 TRAINING WORKSHOPS AND EVENT FOR LOCAL COMMUNITY

Vocational instruction for local community is a significant component of the University of Poonch Rawalakot. Beyond traditional academic education, this university understands the importance of giving students and community members' practical, jobs oriented skills and knowledge. For this purpose, the University of Poonch Rawalakot's vocational training programs are essential in meeting the needs of general public by equipping them with useful knowledge and skills, which in turn promotes not only the personal development of local community, but also equip them with skilled based knowledge and training.

Through vocational training, people may acquire real –world skills and abilities that are immediately useful in a variety of fields and employment markets, and this makes it easier for students and the general public to get jobs and succeed in their chosen fields. This type of vocational training equips individuals with practical skills and competencies that are directly applicable to various industries and job markets. This empowers students and the general public to find employment more easily and excel in their chosen careers.

UPR customizes its vocational training programs to meet the unique requirements of the labor market and the local community. People from a variety of backgrounds and interests can find chances at the University of Poonch Rawalakot thanks to its wide choice of practical courses. Everyone may pursue and succeed in a variety of sectors, including trade skills, healthcare, food technology, poultry, and agriculture. Vocational training makes people more competitive in the job market by keeping them abreast of industry trends and technology breakthroughs, which is crucial given how quickly the work environment is changing.

Following are these events conducted by UPR in 2023.

4 Two days' workshop on Nano technology Organized by Department of Physics, UPR

On July 25, 2023, the Department of Physics held its second one day workshop on 2nd National workshop on materials Physics and Nanotechnology bringing together a vibrant community of scientists, researchers, students, and industry experts. The event

aimed to showcase the transformative role of nanotechnology in addressing critical scientific and societal challenges, such as energy efficiency, medical advancements, and environmental sustainability. Attendees engaged in discussions on groundbreaking research, innovative applications, and the future trajectory of Nano scale technologies. Keynote speakers from leading institutions provided insights into recent developments, emphasizing how nanotechnology is revolutionizing fields like drug delivery, renewable energy, electronics, and materials science. The conference also featured interactive sessions, workshops, and poster presentations, offering participants an invaluable platform to collaborate, exchange ideas, and explore the vast potential of nanotechnology in shaping.

Registrar /Dean Faculty of Basic and applied science Prof. Dr. Rauf Khan and other local and national renowned Scientist participated in the workshop organized By Department of Physics

5Training workshop on honey harvesting for Community

A training workshop on the harvesting of *Apis cerana* honey and their winter management was conducted at the Department of Entomology, Faculty of Agriculture, the University of Poonch Rawalakot (UPR). The event aimed to educate beekeepers, students, and enthusiasts about sustainable honey harvesting techniques and effective strategies for managing *Apis cerana* colonies during winter.

Experts from the department delivered practical demonstrations on honey extraction methods that ensure hive health and maximize yield. They also discussed critical aspects of winter management, including feeding practices, hive insulation, and pest control measures to protect bee colonies during harsh weather conditions.

Participants gained hands-on experience in handling *Apis cerana* hives and learned best practices to improve productivity while ensuring the well-being of the bees. The workshop emphasized the ecological and economic importance of beekeeping and its potential for rural development in Azad Jammu and Kashmir (AJK).

The training was well-received, with attendees expressing enthusiasm for implementing the techniques learned. This initiative reflects the department's dedication to promoting sustainable apiculture and empowering local communities

Department of Entomology, Faculty of Agriculture, University of Poonch Rawalakot, organized a training course on gathering Apis cerana honey and winter management, equipping participants with practical beekeeping knowledge.
