

1- Faculty members and students of Veterinary and animal Sciences visited livestock complex and poultry management in different area of Azad Kashmir Region

Under the guidance of Drs. Kashif and Aziz ur Rahman, teachers and students from the Faculty of Veterinary and Animal Sciences and Livestock recently visited the Palandri Poultry Complex and the Army Livestock Setup in Kotli with the goal of improving practical knowledge and skills for the betterment of livestock and poultry management. The group explored modern poultry practices at the Palandri Poultry Complex, focusing on biosecurity, disease control, and nutrition management, which are essential for maintaining flock health and productivity. The visit to the Army Livestock Setup in Kotli offered insights into livestock care, including animal welfare, feeding practices, and veterinary interventions. This practical experience enhanced students' comprehension of sustainable and effective livestock and poultry practices, providing them with useful tools to improve the productivity and animal health in the region.

Investigating Excellence: Veterinary Sciences faculty and students have practical experience at the Palandri Poultry Complex.

Field Insights in Action: Students from the Faculty of Veterinary and Animal Sciences work at the Army Livestock Setup in Kotli, overseen by Drs. Kashif and Abdul Aziz.

2- Awareness Visit to Read Foundation School, Rawalakot

The Faculty of Agriculture, University of Poonch Rawalakot (UPR), organized an educational visit to Read Foundation School, Rawalakot, to raise awareness about the critical role of native pollinators in maintaining biodiversity and ensuring food security.

During the visit, faculty members conducted interactive sessions with students, explaining the ecological and agricultural significance of pollinators such as bees, butterflies, and other insects. The importance of pollinators in crop production, plant reproduction, and maintaining ecological balance was emphasized. Practical examples and real-world scenarios were shared to help students connect the concept to their daily lives.

Students were also educated about the threats to pollinator populations, including habitat destruction, pesticide use, and climate change. The sessions encouraged them to take simple actions to protect pollinators, such as planting native flowering plants and avoiding harmful pesticides.

The event was met with enthusiasm from both students and staff, fostering a sense of responsibility toward environmental conservation. This initiative reflects UPR's dedication to engaging young minds in sustainable practices and enhancing awareness about the natural world

3- Career counseling seminar at Khan Muhammad Khan Postgraduate College, Plandari, AJK

A career counseling seminar was held at Khan Muhammad Khan Postgraduate College, Palandri, Azad Jammu and Kashmir (AJK), organized by the Faculty of Agriculture, University of Poonch Rawalakot (UPR). The event aimed to guide students in making informed career choices and preparing them for the competitive job market.

Faculty members from UPR delivered insightful presentations on various career pathways in agriculture and allied fields, emphasizing the growing opportunities in agricultural research, technology, and entrepreneurship. The seminar highlighted the importance of higher education and skill development for securing promising careers in the public and private sectors.

The sessions included discussions on academic options, job prospects, and emerging trends in the agricultural industry. Faculty experts also addressed students' queries and provided personalized advice based on their interests and strengths. The seminar was well-received, with participants expressing appreciation for the practical guidance and motivation to explore diverse career possibilities.

Empowering Futures: UPR Faculty of Agriculture-organized Career Counseling Seminar at Khan Muhammd Kahn (KMK) Postgraduate College, Palandri Azad Kashmir

4- Academic Visit by ESMA Students to the Faculty of Agriculture, UPR

A group of students from Extension Services Management Academy, (ESMA) Muzaffarabad, AJK. Undertook an academic visit to the Faculty of Agriculture at the University of Poonch Rawalakot this visit aimed to provide students with practical exposure to advanced agricultural practices and enhance their understanding of modern farming techniques.

During the visit, students explored various facilities, including laboratories, greenhouses, and experimental farms. They observed demonstrations of innovative agricultural methods and technologies related to crop production, pest management, and soil science. Faculty members and researchers briefed the students on ongoing projects, highlighting the importance of sustainable practices and the latest advancements in agricultural research.

The visit concluded with an interactive session where students had the opportunity to discuss their queries and share insights. This hands-on experience helped bridge the gap between theoretical knowledge and practical application, inspiring students to further their interest in agricultural sciences.

"Students from ESMA, Muzaffarabad, visited the Faculty of Agriculture, University of Poonch, Rawalakot, for an insightful experience in modern farming techniques and advanced agricultural practices."
