International collaboration data gathering for SDG

1. Polio training workshop

The University of Poonch Rawalakot, in collaboration with the World Health Organization (WHO), organized a workshop aimed at improving polio vaccination efforts across various districts of Azad Jammu and Kashmir. The WHO team trained students on how to collect samples and monitor data effectively. The workshop emphasized the importance of vaccination and the need to enhance global health standards.

Dr. Saima Rafiq, Assistant Professor, Department of Food Science & Technology, University of Poonch Rawalakot-AJ&K

Subject: Letter of Commitment for the contribution to the proposed project

Dear Madam.

With reference to the subject cited above, it is stated that i am pleased to collaborate with the Department of Food Science & Technology, University of Poonch Rawalakot, AJ&K in the project entitled "Development of spreadable cheese analogues by using vegetables oil as a substitute of milk fat" for a period of 3-years. Being expert in the relevant field, i will utilize my potential, provide assistance, guidance and technical support and product development in my Lab during her visit for this project. Our department is well furnished with equipments used for cheese development and analysis so assistance will be provided for the project. This project has great market value as well. I hope this project will create awareness about cheese manufacture and its nutritional importance. The project has good worth for the socio-economic development of local community of AJ&K -Pakistan.

With best wishes,

Dr. Ali Adnan HAYALOGLU,

Professor,

Department of Food Engineering,

Engineering Faculty,

Inonu University, Malatya Turkey,
