

UPR's Carbon Neutrality Target Date

The University of Poonch Rawalakot (UPR) has established its carbon neutrality targets, which are outlined in the UPR Climate Action Plan. These targets encompass Scope 1 and Scope 2 emissions, with the target date also encompassing Scope 3 alongside Scope 1 and Scope 2.

The carbon neutrality goals outlined in UPR's Climate Action Plan

[Climate Action Plan](#)

include:

30 % reduction in
greenhouse gas
emissions by 2025.

Achieve carbon
neutrality for
Scope 1 and 2
emissions by 2030.

Work towards
carbon neutrality
for Scope 3
emissions by 2050.

UPR's Target Date for Achieving Carbon Neutrality in Scope 3

The University of Poonch Rawalakot (UPR) has undertaken numerous initiatives, events, and programs dedicated to addressing climate change. UPR is actively pursuing multi-dimensional strategies to achieve carbon neutrality within the university. Extensive plantation drives have already been conducted, as documented in indicator 13.4.1 of our climate action efforts.

Moreover, the establishment of targets for Scope 3 emissions is outlined in our comprehensive climate action plan, signifying our commitment to addressing broader indirect emissions across the institution.
